SPEIRS MAJOR

Eira is a family of LED luminaires developed with lighting manufacturer Fagerhult specifically for the healthcare industry.

MANUFACTURER
Fagerhult

PROJECT TEAM
Mark Major, Andrew
Howis, Benz Roos

SPEIRS MAJOR

Eira features an opal shade that softly diffuses the light so that it is comfortable to view even at high output. It is available in two sizes, with the larger fixture able to accommodate tightly controlled downlighting from an integral 'performance ring'.

This supplementary lighting can be called upon to enhance levels when the clinical need arises, reducing the need for further lighting equipment.

SPEIRS MAJOR

The fixtures are a core part of Fagerhult's Health & Care range and have been specified for patient rooms, consultations rooms and corridors in a number of hospitals.
