

Adrien has over 10 years' experience in lighting design since graduating from University Institutes for Technology of Paris, where he developed an interest in the process of lighting through mock-ups and focussing sessions.

In February 2009 Adrien joined Speirs + Major and was made a Senior Designer soon after. He has since worked on numerous projects including the Maggie's Centre, Lanarkshire, The Pinnacle London, AXA Tower, Paris, the Beverley Center, USA and the Miami Design District, USA. He has particular experience working on the development of special products and solutions for retail, museum, exterior spaces, theatre, exhibition and other interior spaces and is currently leading a major development in Hong Kong.

Adrien loves to travel and enjoys hiking, windsurfing and snowboarding.
