

Justyna gained her Bachelor's degree in Interior Spatial Design from the University of the Arts, London. Here she was drawn to experimenting with light and what effect it had on spaces, people and the environment.

After her graduation Justyna completed an internship at the CAELVM creative studio in Seville, Spain, where she worked as a Product Designer with the disciplines of Art, Design and Fashion.

Justyna joined Speirs + Major in 2016 and enjoys working on urban projects and art installations. Currently she is assisting on several commercial and retail projects based in Hong Kong.

An Edinburgh resident, Justyna has developed a recent passion for road cycling and hopes to participate in some racing events in the near future.
