

Jaime studied Superior Architecture at ETSAV Polytechnical University of Valencia, Spain before completing his Masters in Lighting Design through Masterdia at the Polytechnical University of Madrid.

Jaime started at Speirs + Major in 2013 and was promoted to Senior Designer in 2018. He has since worked on a number of projects including a community building in Norwich, a high-end restaurant in London and Coal Drops Yard in King's Cross.

He is currently working on the lighting design for the Fortnum & Mason stores, the Peninsula Hotel London and the Battersea Power Station development.

He is looking forward to further exploring the more artistic, creative and conceptual side of architecture and the effect such an intangible material as light can have.

Jaime speaks English, Spanish and Catalan fluently.
